What’s next?
What’s next?

- **Bone and joint health** are fast growing, emerging opportunities. Collagen has provable benefits.

- **Skin health applications** have more opportunities outside the supplement category compared to bone + joint.

- Collagen will continue to grow in popularity | demographics is destiny: **healthy aging (lifestyle)** is a big opportunity.

- The **sports protein category** is a fast growing around the world and collagen offers new benefits in combination with other proteins.

- Gummies/Jellies dominant the application of collagen in **functional confectionery**. As consumers around the world look for more permissible indulgence, this remains a category for novel applications.

- **Novel products** remain a more niche opportunity but does provide opportunities for product differentiation.
Thank you!
